

# Corn: Liquid Seed Treatment

Effectively protects newly planted field and sweet corn seed from attack from a variety of birds. This will insure a more uniform stand and, therefore, the potential for increased yields.

## Value and Advantages

- Reduces the risk of costly replanting due to bird damage
- Cost-effective treatment
- Liquid formulation is easy to apply
- Permits treating seed ahead of busy planting season
- Can be used on both field and sweet corn

## Package Size:

- 2 x 2.5 gallons
- 24 per pallet

Product	Case Size	Treatment Rate
Avipel Liquid Corn Seed Treatment	2 x 2.5 gallon	13.5 fl. oz. /cwt
No. cwt treated per 5 gallons 48 (approx. 4,800 pounds of seed)		

## Avipel Use Rate:

Corn seed – By volume, 13.5 fluid ounces of Avipel per one hundred pounds (cwt) of corn seed or by weight, 16.5 ounces of Avipel per one hundred pounds (cwt) of corn seed. One gallon will treat approximately 980 pounds of corn seed.

## Corn: Liquid Application Guide Product Bulletin

### Directions for Use:

- 1 Shake well or agitate prior to use.
- 2 Add Avipel to the mix tank. Start and maintain constant mechanical and bypass agitation throughout the entire mixing and treating process.
- 3 Accurate calibration of the application equipment and frequent checks of this calibration are recommended to insure proper seed coverage.
- 4 Uniform coating of the seed is necessary to insure proper efficacy.
- 5 Depending on the type of seed-treating equipment used, a small amount of water can be added to the product to facilitate product flow through the spray nozzles. Do not exceed five (5) fluid ounces of water per gallon of Avipel.
- 6 Environmental conditions such as temperature and humidity could have an effect on handling and during the drying of seed just after treatment.

### Handling Precautions:

- 1 **SLN 24 (c) Labeled Product -** Use only in accordance with individual state authority and regulations.
- 2 Always follow manufacturer's label recommendations.
- 3 Keep out of reach of children.
- 4 Keep product from freezing. Shake well or agitate prior to use.
